

## **August 11, 2018, General Meeting Minutes**

The regular monthly meeting of the Prescott Mac User Group (PMUG) was held on Saturday, August 11, 2018, at 10:00 a.m., at the Yavapai College, Building 4, Room 102.

John Carter, President, presided over the meeting. The Recording Secretary, Bobbie Pastor, was present. The Minutes of July 12, 2018, were approved. We had 25 people in attendance.

Our new member since last meeting was: Patrick Harper. Patrick is an artist who uses his MacBook Pro in his art work.

John discussed the new Budget that Sharon and John developed for our accounting.

Announcement of the Mac Brunch scheduled for August 22, Prescott Junction, 10:00 a.m., room in the back.

John discussed the need for a club PR person. Someone who can place ads in the paper and on the radio and television. We really need new people to fill these positions in the club. The same people get tired of doing it year after year.

We also need people to take home some brochures to hand out in appropriate places. John suggested we take a few brochures home and place them in a good spot, to be seen by somebody.

We had Roscoe's Tidbits and it covered making your Desktop uncluttered, by using Folders on the Desktop. It used to slow down your computer by having too many things on the Desktop, but Art heard that now, it makes little difference. The other Tidbit was about an application called *Clean My Mac*. When you want to uninstall an app, this app makes it easy to do by cleaning out all the fragment files that was generated by the application you are now wanting to delete.

The Short Topic session had Sondra Bradshaw introducing an app for the iPad called *Wish Board*. Wish Board helps you solidify your dreams and expectations for your future goals. It was very interesting.

Art gave us a great tip for the iPad users. You can change the screen to show a Desktop version of your webpage. By default, you will get the iOS version of the webpage. By going up to the *Address Bar*, press and **hold** the circular arrow in the right hand corner of the bar.

Art introduced us to an application called: *Trello*. It is an application used as a way to collaborate with people on say a community project. It is free. They also have good iPhone and iPad apps.

We broke for refreshments and Social Hour. When we came back from break, John surprised us with his very own drone, called a D.J. Maverick Pro helicopter. The speaker that John had scheduled, was unavailable, however, the helicopter was amazing fun. Except, John wouldn't let us take it out to the courtyard and see what it could do. Oh well...

Jim Romaine showed us a video his friend took of Watson Lake from his drone. Jim gave us some Tips and Tricks for our iPhone.

John Carter gave us some *Tips and Tricks* for Spam.

The Door Prizes were awarded to Lauren Edwards with the Staples gift card. Dicy Apperson won the iTunes card and Sharon Walsh took home the Take Control Book.

Next month's topic: Printers! With Jeff Ian.

Adjourned at 12:10 p.m.
