

September 14, 2019 PMUG General Meeting Minutes

The regular meeting of the Prescott Mac User Group (PMUG) was held on Saturday September 14, 2019, at 10:00 a.m. at Yavapai College, Building 3, Room 119.

Call to Order: The President, John Carter, presided over the meeting. John Acquavella prepared the minutes. There were 27 people in attendance, including 4 visitors – Doug Stemm, Kathy Stemm, Audrey Hollifield, and Julianne Dodds. Cathy and Doug Stemm joined as new members.

Business Meeting: The August minutes had not yet been posted but were considered approved by acclimation. These minutes will be posted shortly. The August financial report was approved. The closing financial balance for August was \$2,593.40.

Short Topics:

Frank Croft reviewed the recent Apple new product announcements from the September 10 keynote presentation. The video presentation is available at www.apple.com.

Frank Croft reviewed how to check for software that will stop working when MAC OS stops supporting 32-bit applications. From the Apple menu (click on the apple symbol), choose About This Mac, then click the System Report button. From the system report, scroll down to Software in the sidebar, then select Applications. It will take a couple of minutes to populate. When you select an individual application, you will see a field titled 64-bit (Intel). "Yes" indicates 64-bit; "No" indicates 32-bit. If you're using macOS Mojave, select Legacy Software in the sidebar to see all applications that have not been updated to use 64-bit processes. If you highlight an application, the developer and the web address will be identified. Use this web address to determine whether there is a 64-bit patch. An alternative is to download a free app "Go64" that will identify 32-bit programs and the vendors, and search for a link about 64-bit upgrades. The Go64 vendor (St Clair Software) is known to the PMUG board as a very reliable company.

We broke for our social time.

Main Topic: All About Mail: Using a client app vs online, iCloud vs Gmail, iOS vs macOS, and more! By John Carter. His presentation can be found on the PMUG website under the meeting information link for the September 14 meeting.

Next Month's main topic: Changes in iOS, iPadOS, and macOS

The Door Prizes: There were no door prizes because of a snafu about bringing the tickets to the meeting. We will do 2 drawings at the next meeting.

Adjourned at 12 noon.
