

# APPLE FOCUS DND

PMUG GENERAL MEETING MARCH 2022

# WHAT IS FOCUS??

- ❖ Focus automatically filters notifications based on what you are doing
- ❖ Focus uses on-device intelligence to suggest notifications from Apps and People
- ❖ Your status is shown to your contacts when they Message you
- ❖ Focus can be based on Contextual suggestions like App or location

# FOCUS

- ❖ Does not replace DND - still available with all options
- ❖ More intelligently applies DND based on location, time, App, etc
- ❖ More options on iOS devices
- ❖ Focus modes sync between all computer/devices based on similar iCloud logins

# SETTING UP FOCUS

- ❖ On iOS, go to Settings > Focus; On MacOS go to System Preferences>Notifications & Focus
- ❖ Select a Focus (Driving, Personal, Sleep, Work), and tap Set Up to turn on
- ❖ Read options, tap Next, select the people you want to receive notifications from (Allow, Allow All, Allow none)
- ❖ Select the Apps that are allowed to send you notifications in this Focus

# CREATE A NEW FOCUS

- ❖ On iOS, go to Settings > Focus; On MacOS go to System Preferences>Notifications & Focus
- ❖ Tap the “+” in upper right corner
- ❖ Choose the option (Reading, Mindfulness, Gaming, Fitness or Custom) to begin
- ❖ Select people and Apps to receive notifications
- ❖ Select auto turn on criteria

# CUSTOMIZE HOME SCREEN

- ❖ Tap on Settings > Focus
- ❖ Select the Focus you want to customize
- ❖ Tap on Home Screen
- ❖ Select on/off or badges and on for Custom Pages
- ❖ Select the home screen you want

# ADD OR SCHEDULE AUTOMATION

- ❖ Settings > Focus > select the one you want
- ❖ Tap on “Add Schedule or Automation”
- ❖ Select Time, Location or App
- ❖ Under “Turn on Automatically” tap On

# FOCUS DEMONSTRATION
