FIND MY

PMUG SHORT TOPIC - DECEMBER 9, 2023

FIND MY

Released with iOS 13 on September 19, 2019.

It is an asset tracking service. Assets are people, Apple products and any item you attach with an AirTag.

Requires a connected iCloud account.

Operates on iOS, MacOS, iPadOS.

WHAT ARE WE TRYING TO FIND?

- * People (that have agreed to be tracked)
- * Devices
- * Items (Air Tags)

PEOPLE

Easily track people in your contacts list.

They must accept an invitation that you would initiate.

NOTIFICATIONS

Select the person, press "Add" under Notifications and then select "Notify Me" or Notify (selected person).

Your options appear on the screen shot on the right.

ADD A PERSON

Select the "People" category.

Press the "+" button.

Select "Share my Location"

A list of iOS capable contacts will come up. Select a name and press the "send" button. Choose to share for one hour, until end of day or indefinitely.

They will receive an invite. Once they accept, they now have the option to share or not to share their location.

SATELLITE FEATURE

via satellite when you're somewhere without cellular and Wi-Fi coverage.

The update via satellite will be every 15 minutes.

- For iPhone 14 (with iOS 16.1 or later) or iPhone 15 models, you can also share your location
- To share your location via satellite with someone, you need to already be sharing your location with that person in Find My before you're outside of cellular and Wi-Fi coverage.

DEVICES

Keep track of all your devices: iPhone, iPad, iPod touch, Apple Watch, Mac and AirPods.

Tap on the item and get all the details.

Some devices can send location data for up to 24 hours after they've been turned off or have low battery conditions.

Adding a device is easy - once it is in the iCloud, you'll see it on Find My.

DEVICE NOTIFICATION

10F2

Important feature!

You can activate the system to notify you if a device is left behind.

PMUG SHORT TOPIC 12-9-23

DEVICE NOTIFICATION

2 OF 2

You can enter an exception to the rule.

Notify unless it is left at home or work or any location you choose.

Personally, I have all listed to notify except if left at home.

ITEMS

AirTags are the primary item tracked under "items."

They are bluetooth connected trackers.

Once set up to your Apple ID, it is tracked on the Find My app.

While their bluetooth range is limited (30-100 feet), they can connect seamlessly and securely to Apple's Find My network . "It takes a village..."

ITEMS - THE FIND MY NETWORK

The "Find My" network works by leveraging the large number of Apple devices in use worldwide. When an AirTag is separated from its owner and out of Bluetooth range, it can send a secure Bluetooth signal that can be detected by nearby Apple devices. These devices then relay the location information to the owner's iCloud account, allowing them to track the lost AirTag's last known location on a map.

The location information is transmitted anonymously and encrypted, so the device relaying the signal cannot be identified by anyone, including the AirTag owner.

LOST MODE

Lost mode allows you to report a lost item and provide instructions for notifications to you and instructions for someone if they find you item or device.

You can leave your phone number or email that others who find your device can access.

WHAT WILL HAPPEN?

Notify When Found

You will receive a notification when the location becomes available.

Find My Lock

This item is linked to your Apple ID so no one else can pair to it.

Leave a Message

Leave a phone number or email for the finder of your item to contact you.

FIND MY - CONCLUSION

Find My is a very useful and practical app. It operates in the background.

It can save us a lot of frustration and potential heartache if we were to lose something.

It provides us the means to locate important items and the people we love.

BONUS CONTENT

PHOTO FEATURE

The "info" features on photos allows us to identify plants, dogs, monuments, etc.

Did you know, it can define the laundry symbols?
